BIOMETRIKA

A JOURNAL FOR THE STATISTICAL STUDY OF BIOLOGICAL PROBLEMS

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

EDITED

IN CONSULTATION WITH SIR FRANCIS GALTON

BY

KARL PEARSON

VOLUME VII

JULY 1909 TO OCTOBER 1910

CAMBRIDGE
AT THE UNIVERSITY PRESS

LONDON: FETTER LANE, E.C.
(C. F. CLAY, MANAGER)
AND H. K. LEWIS, GOWER STREET
EDINBURGH: 100, PRINCES STREET
NEW YORK: G. P. PUTNAM'S SONS
BERLIN: A. ASHER AND CO.
LEIPSIC: BROCKHAUS
BOMBAY AND CALCUTTA: MACMILLAN AND CO., LIMITED

CONTENTS OF VOL. VII.

Memoirs.

		PAGE
I.	Canary Breeding. A Partial Analysis of Records from 1891—1909. By A. Rudolf Galloway	1
II.	Tables of the Γ-Function. Arranged by J. H. Duffell	43
III.	A Second Cooperative Study of *Vespa vulgaris*. Comparison of Queens of a Single Nest and Queens of a General Population. By E. Y. Thomson, Julia Bell, and Karl Pearson	48
IV.	The Opsonic Index—A Medico-Statistical Enquiry. By W. F. Harvey and Anderson McKendrick	64
V.	On a New Method of Determining Correlation between a measured Character *A* and a Character *B*, of which only the Percentage of cases wherein *B* exceeds (or falls short of) a given Intensity is recorded for each grade of *A*. By Karl Pearson	96
VI.	On Inheritance in the Production of Butter Fat. By H. L. Rietz	106
VII.	Tables to facilitate the Computation of the Probable Errors of the Chief Constants of Skew Frequency Distributions. By A. Rhind	127
VIII.	On the Relation between the Symmetry of the Egg, the Symmetry of Segmentation, and the Symmetry of the Embryo in the Frog. By J. W. Jenkinson	148
IX.	Histological Examination of a Case of Albinism. By J. E. Adler and J. McIntosh	237
X.	Note on Internal Albinism. By Karl Pearson	244
XI.	On a New Method of Determining Correlation, when one Variable is given by Alternative and the other by Multiple Categories. By Karl Pearson	248
XII.	On the Effect of a Differential Fertility on Degeneracy. By Karl Pearson	258

70057

PAGE

XIII. A Statistical Study in Cancer Death-Rates. By G. D. MAYNARD 276

XIV. A Quantitative Study of the Morphology of the Fruit of the Blood-root, *Sanguinaria Canadensis*. By J. A. HARRIS . . . 305

XV. An Objective Study of Mathematical Intelligence. By WILLIAM BROWN 352

XVI. Darwinism, Biometry and some recent Biology, I. By KARL PEARSON 368

XVII. Tables to facilitate the Computation of the Probable Errors of the Chief Constants of Skew Frequency Distributions. Part II. By A. RHIND 386

XVIII. Mosquitoes and Malaria. A Study of the Relation between the Number of Mosquitoes in a Locality and the Malaria Rate. By H. WAITE 421

XIX. Tables of the Tetrachoric Functions for Fourfold Correlation Tables. By P. F. EVERITT 437

XX. On the Selective Elimination occurring during the Development of the Fruits of *Staphylea*. By J. A. HARRIS 452

XXI. A Biometric Study of Phagocytosis with Special Reference to the Opsonic Index. Second Memoir: On the Distribution of the Means of Samples. By M. GREENWOOD, Junr. and J. D. C. WHITE 505

XXII. On the Constants of Index-Distributions as deduced from the like Constants for the Components of the Ratio, with Special Reference to the Opsonic Index. By KARL PEARSON . . 531

Miscellanea.

(i) On the Distribution of the means of Samples which are not drawn at Random. By STUDENT 210

(ii) A short method of calculating the Coefficient of Correlation in the case of Integral Variates. By J. A. HARRIS 214

(iii) Note on Variation in *Adoxa*. By J. A. HARRIS 218

(iv) On the Association of Drawing with other capacities in School Children. By ETHEL M. ELDERTON 222

(v) Variability in Shirley Poppies from Pretoria. By G. D. MAYNARD 227

(vi) Some recent Criminological Works. By CHARLES GORING . . 231

PAGE

(vii) Note on Partial Leucosis in a Hen. By W. Coles Finch . . 234

(viii) Dr Galloway's "Canary Breeding." By C. B. Davenport . . 398

(ix) Canary Breeding, A Rejoinder to C. B. Davenport. By A. Rudolf Galloway 401

(x) Inheritance in Canaries, A Study in Mendelism. By David Heron . 403

(xi) Biometric Notes. (i) An Abac to determine the Probable Errors of Correlation Coefficients. By David Heron 410

(ii) On the Probable Error of a Partial Correlation Coefficient. By David Heron 411

(xii) On the value of the Teachers' Opinion of the General Intelligence of School Children. Compiled from the Tables and Reductions of H. Gertrude Jones. By Karl Pearson 542

(xiii) Note on the Separate Inheritance of Quantity and Quality in Cows' Milk. By Karl Pearson 548

Book Notes and Bibliography 413

Plates.

Parts I. and II.

Plate I. Canary and Canary Hybrids . . . . . *to face p.* 42

Plate II. Wild Sports . . . . . „ 42

Plate III. Canary Hybrids . . . . . „ 42

Plate IV. Canary Varieties . . . . . „ 42

Plate V. Variegated Buff Dutch Frill Canary and Trumpeter Pigeon . . . . . „ 42

Part III.

Plate I. Sections of Retina in 4th and 10th week Embryos . „ 242

Plate II. Sections of Retina and Iris in albino and normal Children „ 242
